

Permeate: An In-demand Ingredient

New Product Introduction Snapshot | 2021

More than a trend, permeate is a permanent fixture in the ingredient world!

Over the past decade, the number of tracked new product introductions using permeate has soared globally. It's no surprise, given this ingredient's multifaceted benefits, including: flavor enhancement, sodium reduction, nourishing minerals, browning and cost savings.

In 2021, a record-breaking **752** products launched

Compound annual growth rate (CAGR) of **17.6%** between 2016-2021

The number of tracked new products with permeate **doubled** from 2017 to 2021

35.0% increase from 2020 to 2021

Permeate use is expanding and diversifying globally.

North America and Western Europe accounted for 52% of all permeate product launches, with the rest of the world making up the other 48%.

In 2021, Southeast Asia accounted for 43% of the launches in Asia.
